SHAPING THE EDUCATION LANDSCAPE

AeU is a private tertiary education institution incorporated under the Private Higher Educational Institutions Act 1996. Established in 2007, AeU has grown to become a leading provider of open and distance learning (ODL) in Asia. As an ODL institution, AeU’s focus is to provide accessible and affordable higher education for all. The University was brought into existence for a new approach to tertiary education that gives rise to greater flexibility in learning. The philosophy is based on the belief that quality education should be made available and accessible to all people regardless of just plain demographics.

AeU’s pedagogical model, adopts a new way of learning and teaching method which creates an educational experience that is more responsive to learners’ needs and aspirations. This thus provides the flexibility which allows learners to structure their own learning, at a pace of their own choice and which adopts learning modes that can complement their lifestyles accordingly.

AeU currently offers more than forty (40) academic programmes at all levels, ranging from Diplomas to PhDs through five (5) academic schools; the School of Management, of Education & Cognitive Sciences, School of Information & Communications Technology, School of Arts, Humanities & Social Sciences and School of Graduate Studies. All academic programmes are internationally benchmarked, approved by the Malaysian Ministry of Education (MOE) and accredited by the Malaysian Qualifications (MQA). AeU also offers more than a hundred and sixty (160) executive and professional programmes through the School of Professional & Executive Education and School of Technical Engineering & Reskilling.

Since opening its door in April 2007, AeU today has an enrolment of more than 15,000 students internationally, and has graduated over 5,000 graduates thus far. By delivering a world-class learning experience, AeU aspires to be the leader and the premiere educational hub in promotion of affordable quality e-learning throughout Asia.
