Asia e University (AeU) is a collaborative multinational university established under the Asia Cooperation Dialogue (ACD). Its establishment is an initiative of Malaysia with the support of 33 ACD member countries.

AeU has been acclaimed with top honours and awards such as the winner of Brand Laureate Awards 2010 for “Best Brand in Education - e-Education” and the Asia Pacific Entrepreneurship Awards 2010. AeU also received the prestigious Multimedia Super Corridor (MSC) status award, which is a testament to its commitment to integrating technology and innovation into its teaching and learning methods. In October 2012, AeU has been declared as the Best ACD Project during Asia Cooperation Dialogue (ACD) Meeting in Kuwait.

AeU offers 3 broad categories in education and training: (1) academic programmes; (2) professional and executive programmes and (3) joint certification programmes. The AeU education and training programmes are made accessible and affordable through a flexi mode of delivery whereby students may study full-time in our Malaysian campus or part-time via blended learning or online learning in their home countries. This has been very attractive in promoting lifelong learning for many working adults as well as in facilitating the promotion of internationalization via collaborative partnership in programme development and delivery.

AeU’s Knowledge Centre has a state of art “living library” ambience with the interface for the digital library in a virtual environment that offers 24/7 access to more than 40,000 titles of digital book, over 2 million e-Thesis, databases, thousands of journals and publications.
