Required Skills for Master Students by Research

Be independent: This is a learner-centred Master's programme that requires students to conduct their research independently, with approved supervisory assistance as needed and in compliance with university's stipulated guidelines to complete all required phases/stages.

Be tenacious: This research based thesis may takes up to 3 years, but students must be committed to complete the programme within stipulated time if without penalty.

Be effective in time management: Students need to prioritise and manage tasks effectively to ensure completion of one task before moving on to the next. Goal-focus and consistency are essential to achieving commitment-success.

Adapt to challenges: Invariably, students may face obstacles and challenges in completing their research, but they must be flexible and resolute to overcome difficulties immediately.

Communicate effectively: To earn recognition as a serious master student and a researcher, students must be confident in delivering the Research Proposal Defense, Viva Voce and completed thesis on time and effectively.
